Call for Application for grants for stays in France

We are opening a call for applications for two student grants for stays in France for a period of one month in order to collaborate within the CNRS laboratories on their doctoral or master's project.

The research activities funded are high energy astrophysics, neutrino physics, the dark universe, the primordial universe, particle physics and gravitational waves. Only University of Tokyo students are eligible. Fellowships will cover all costs, including the airfares.

The application deadline is September 15, 2023. A complete application must include CV, letters of motivation, research plan, and recommendation from the supervisor. The dates of stay in France must be scheduled for the end of 2023 or the beginning of 2024
